

LAMP DEFINITIONS

	<p>Straight Fluorescent</p> <p>Fluorescent bulbs come in typically 4,6 or 8 foot lengths.</p>
	<p>Compact or Circle Fluorescent Lamps</p> <p>CFLs are designed to replace an incandescent lamp and can fit into most existing light fixtures formerly used for incandescents. They come in many different shapes and sizes.</p>
	<p>U Bend Fluorescent Lamps</p> <p>Easy to identify by the name. U design is a dead giveaway!</p>
	<p>Incandescent Lamps</p> <p>Incandescent lighting is the most common type of lighting used in homes. It has traditionally delivered about 85% of household illumination. Incandescent lamps operate without a ballast. They light up instantly, providing a warm light and excellent color rendition. Incandescent lamps are the least expensive to buy, but because of their relative inefficiency and short life spans, they usually are more expensive to operate.</p>
	<p>HID, High Pressure Sodium or Bi-Metal Lamps</p> <p>A type of high-intensity discharge lamp that uses sodium under high pressure as the primary light-producing element. These high efficiency lights produce a golden white color and are used for interior industrial applications, such as in warehouses and manufacturing, and for security, street, and area lighting; they are becoming the most common type of outdoor lighting.</p>
	<p>Shattershield</p> <p>Shattershield bulbs are high-performance safety coated lamps, light bulbs and globes which are unaffected by thermal shock, UV, heat, chemicals and are easy to keep clean. Most SRS safety-coated fluorescent lamps and bulbs feature uv-blocking protection-- antioxidants and ultraviolet stabilizers are present in those coatings to block UV emissions. These type of bulbs generally have special markings indicating their type.</p>
	<p>Finely Crushed Fluorescent Lamps (In 55 Gallon Drums)</p>
	<p>Broken (Not Finely Crushed) Fluorescent Lamps</p>

eForce Compliance is a leading and innovative recycling firm serving businesses in the metro-Philadelphia area. They help clients increase recycling rates, reduce disposal expenditures and provide the convenience of servicing over 100 recyclables with one call. Their expertise in local recycling markets and superior logistical support reduces carbon footprint while providing maximum environmental and financial returns.
